Re: RStandard Testimonial

Dear Galen,

After our analysis was complete, the RStandard was the obvious monopole choice for this broadband project. The standard sized, nesting modules allowed for quick lead time and cost effective transportation. Pole assembly and setting are very efficient with this system, which allowed us to expedite our build schedule. We also have the flexibility to deploy larger base modules today and add new top modules in the future to increase the pole height to accommodate future network upgrades or site sharing revenue opportunities.

The RStandard is the only monopole system that offers this many solutions and is also maintenance free.

Sincerely,

Jeff St. Aubin
